# Where You Are

## Gavin Degraw

Well everybody hurts
That's where we're all the same
We drive on through the worst
And push on through the pain
I'm standing at your door
It's been a million miles
I'll be the first to say
I can't take anymore
(Chorus)
And that I want to be where you are
I feel the same as I did from the start
Whoa, I want to be where you are
And I'm willing to get there
There won't be any hearts breaking again
This is the part where I stay where I stand
Oh, I want to be where you are
Tell me you're with me so far
So let this be the chance
The only one that counts
You're love will be my last
Until my life runs out
Until then I won't rest
Till then I will not stop
Untill I hear the words
All I need is a yes

(Chorus)
And that I want to be where you are
I feel the same as I did from the start
Whoa, I want to be where you are
And I'm willing to get there
There won't be any hearts breaking again
This is the part where I stay where I stand
Oh, I want to be where you are
Tell me you're with me so far
I am amazed
And I'm clutching to each word you say
If only the space
Forgetting every mistake

That I made
I'm beginning to change
'Cause I feel all my fears slip away
And each look at you
Is a moment I choose to embrace
(Chorus)
And that I want to be where you are
I feel the same as I did from the start
Whoa, I want to be where you are
And I'm willing to get there
There won't be any hearts breaking again
This is the part where I stay where I stand
Oh, I want to be where you are
Tell me you're with me so far
