## Dr. Doom

Yo, fuck Octagon  
Don't ask me about that fuckin shit  
Fuckin ask me about that fuckin shit again

You motherfuckers think I'm crazy right? (Yeah you crazy)  
I know, but I am I have to show niggaz, word G, I have to blow niggaz  
Tech 9's, Carbines, pointin in your fuckin faces  
Thirty-eight Magnum butcher knife man, watch me stab em  
Q his kid left there, with ambulances, by the wheelchair  
Dangerous Action, I'm the movie, I'm the main attraction  
Fuck up your front lawn with M'n'M's, Jiffy Popcorn  
Piss in your mailbox, throw shitty Pampers every two blocks  
Cut up your great Dane, with charcoal out, leavin great flame  
You fuckin bastard, don't fuck with me, you gettin blasted  
Niggaz get fucked up, you black niggaz are actin white  
Your Rolex gone, my project's on your airplane flights  
First time you check out, baggage claim will throw your neck out  
Cut off your bodyguards, fast start with razor scars  
Come grab the sub machines, Joe step to seminars  
Niggaz with diamonds, armed crack heads, clock y'all rhymin  
Take your girl's necklace, stare at the cops, lookin reckless  
Ass on the corner, think you safe workin at Warner Brothers?  
Polygram building heard some shots, they want me to chill then  
Security ran, Russell Simmons saw me in a black van  
I ran the tight intersection, and caught a big erection  
Spinnin on 3rd, Lexington, through the fuckin red  
I'm in Manhattan, naked wigs, on my fuckin head  
Streets full of traffic, drive on sidewalks, that's my habits

{Make sure he gets a girl okay?}

{Make sure he gets a girl okay?}

{Make sure he gets a girl okay?} Your style is bitch kid, you fucked up, sound like a woman

I'm not impressed when you sport mics and touch your breast

You transvest with small flows, you can't, proper digest

You open mic stands, you catch one, with sperm in your hand

I leave you thinkin in your hotels, with pussy stinkin

Massengil thrills flow through New York, to Hollywood hills

Your male flow, I'm wipin asscracks like Mop-N-Glo

MC's get inserts, thrash style selectin bad words

Move with your silk suits, I stomp your mics with combat boots

Make up your rap that's feeble, small you think it's major

I pull your rectum out, erase your girl, off my pager

International feedback, I make you twist your knee back

I got your crew on camcorders, tryin to rhyme in Tea back's

Garter belts on DJ's, sportin tryin to spin on felts

I see that rugged kid comin through, gimme that screw face

He's wearin girdles, your back-up man, sportin pink lace

Hey man you better watch your back up in here man

They rapin little boys Mental case, mental case

Your group set up, takin turns, y'all shut the fuck up

Walk, grab your nuts, leave the Kangol's and scratch your butts

Stage shows get messed up, you're hardcore, zippin your dress up

Move on your projects, new shit, that's how I do shit

Word up G, y'all niggaz sound puss, lick my pee-pee veteran nasty

Don't even try to fuckin ask me, fax you my phone number

I beat you down with steel cans and wood lumber

Open your face up, dress you with makeup

Have your bitch-made, makin Kool-Aid with your ass out

In a glass house, where convicts wear big dicks  
Strong niggaz, got your assholes in the mix  
You need protection for that tight infectionMental case, mental case
