

Angel Blue (Demo)

Green Day

Gonna build it up just to burn it down
You're a princess, I'm a fucking clown
Stop the presses cause I'm killing time
Won't you be my bloody valentine You're just a fucking kid
And no one ever gives you a break
You want a seÃ±orita
And now your heart is gonna break You're angel blue
With teenage traces
Angel blue
With pretty faces Stab my heart like a stick in the mud
Cut my chest just to see the blood
Now I'm singing out the alphabet
Adjectives are putting out my cigarette
We're at the cemetery so we can see the holiday lights
Waking up the dead and everything'll be alright You're angel blue
With teenage traces
Angel blue
With pretty faces Alright
Stuck in the middle of Heaven and Hell
Alright
Trying to find my better angels Stab my heart like a stick in the mud
Cut my chest just to see the blood
Stop the presses cause I'm killing time
Won't you be my bloody valentine You're just a fucking kid
And no one ever gives you a break
You want a seÃ±orita
And now your heart is gonna break You're angel blue
With teenage traces
Angel blue
With pretty faces
