

# Once In a Lifetime

## 38 Special

Lovers, they come and go just like the seasons  
And lately, it's learnin' to know when it's the real one  
It may be close at hand, don't try to understand it all  
'Cause once in a lifetime First love, they tell you to wait  
For the right one and then it's too late  
Next time just leave it to fate  
You only get a chance once in a lifetime Your heart aches for every day anticipatin'  
Just hold on, your time will come, 'cause you've been waitin'  
Don't let it bring you down your second chance will come around  
'Cause once in a lifetime First love, they tell you to wait  
For the right one and then it's too late  
Next time just leave it to fate  
You only get a chance once in a lifetime, yeah Don't worry 'cause it's bound to happen  
It ain't easy when your life is passin' you by  
It doesn't matter how you try  
You know it's just a state of mind yeah, yeah Hey first love, they tell you to wait  
For the right one and then it's too late  
Next time just leave it to fate  
You only get a chance once in a lifetime Once in a lifetime  
Once in a lifetime
