Demonium

[unknown]

Black
Black upon the throne forever
Devilish to be
Haunting in the voids
Somewhere only demons breatheBlack upon the throne forever
Demonic to be
With eyes that possesses
Dare you to connect usCommuning with spirits
And souls of the beyond
Cursed in black
Summoned here withinBlack [Incomprehensible]
Black upon the throne forever
Never to return
Lurking in the caves
Blacker than darkness itselfFace us
By the damned in black you fall
Speeding with death's wind
Through gates of the beyondRed has marked us pure and evil
Black spirits haunt from here
The frozen squad descend
Demonium
The flame burn withinDeath rides on demon wings
Black spirits haunt from here
The frozen squad descend
Demonium
Demons until the endUntil the end
