Flashlight

Ellie Goulding

Do you remember boy when you were so cruel?
When you played the thief and I played the fool
And I, I'll make you move, I'll make you move, I'll make you move
Spent so long crying over you, now I'm coming your way
Gonna make you move, I'll make you move, I'll make you move, I'll make you moveTracing faces in the sand,
Now your dagger is in my hand
I'll make you move, I'll make you move, I'll make you move
I'll make you run faster, faster, faster, flashlight
Flashlight, get outta my way, get outta my way 'cause I can't lose
I'll make you run faster, faster, faster, flashlight
Flashlight, get outta my way, get outta my way
I'm coming through
I'll make you run oh, I'll make you run, oh
I'll make you run oh, I'll make you run, ohComing down on you with a flashing light,
There's nowhere to run
Baby you can't hide and I'll make you move, I'll make you move, I'll make you move
It's too late now the tables turned,
There's no going back and you'll never learn
Unless I make you move, I'll make you move, I'll make you move, I'll make you moveAnd you think I'm still broken hearted,
But you will never win the war you've started
You better run, run, runFaster, faster, faster, flashlight
Flashlight, get outta my way, get outta my way 'cause I can't lose
I'll make you run faster, faster, faster, flashlight
Flashlight, get outta my way, get outta my way
I'm coming through!And you think I'm still broken hearted,
But you will never win the war you've started,
You better open your eyes!
I'll make you run, I'll make you run, I'll make you run,
I'll make you run, I'll make you run, I'll make you runFaster, faster, faster, flashlight
Flashlight, get outta my way, get outta my way 'cause I can't lose
I'll make you run faster, faster, faster, flashlight
Flashlight, get outta my way, get outta my way
I'm coming through
I'll make you run faster, faster, faster, flashlight
Flashlight, get outta my way, get outta my way 'cause I can't lose
I'll make you run faster, faster, faster, flashlight
Flashlight, get outta my way, get outta my way
I'm coming through

Get outta my way, get outta my way,
I'm coming through
