

# Poison

## Shiny Toy Guns

I'm going to meet you  
I'm going to meet you  
I'm going to meet you  
I'm going to meet you  
I'm going to meet you  
I'm going to meet you  
I'm going to meet you  
I'm going to meet you  
I'm going to meet you  
I'm going to meet you  
I'm going to meet you  
I'm going to meet you  
I'm going to meet you  
Voices are child in sound fades away  
For silence is walking  
Signs of you will leave  
What will happen and now the same as you  
'Til the end of someone's world  
And the cradle says goodbye to yesterday  
Painfully, I prepare a release  
And poison takes me away  
Poison takes me away, takes me away  
Listen, don't cry my child  
When you awake  
My father's table has set a place for you  
Contact, with fire full love  
As you're to know my days  
A season of poison will bring the darkness soon  
Painfully, I prepare a release  
And poison takes me away  
Poison takes me away  
On angel's wings, you learn to fly  
On angel's wings, you learn to fly  
From this world you left below  
I'm going to meet you  
I've come to take you home  
Mommy, mommy, mommy  
From this world you left below  
I'm going to meet you

I've come to take you home  
From this world you left below  
I'm going to meet you  
I've come to take you home  
Painfully, I prepare a release  
And poison takes me away  
Poison takes me away  
On angel's wings, you learn to fly  
On angel's wings, you learn to fly
