## Social Distortion

I'm heading down a lonely highway  
I'm running down a one-way street  
All I wanna know are you going my way  
Is there some place quiet where we can meet  
And friends they come and friends they go  
But you were always by my side  
And where it all ends I don't know  
Don't cry no more, just hold on tight  
There was a time when I was desperate  
Living in a town without a name  
And when things got so dark and desolate  
You taught me how to hide my shame  
And kings and queens and millionaires  
May never know what I have known  
And thank the stars I'm the lucky one  
Thanks for the lessons that I have been shown  
I feel rich, I feel power, and security  
And when I'm weak, you are strong  
Once in a lifetime, twice in eternity  
And guess what, nothing else matters anyways  
I feel rich, I feel power, and security  
And when I'm weak, you are strong  
Once in a lifetime, twice in eternity  
And guess what, nothing else matters anyways
