

# Do It

## Keri Hilson

Dearly beloved,  
You were brought here today  
To make this thing called  
(can you do it)  
Love  
(well, can you prove it)  
Such a beautiful thing  
(well, can you touch it)  
Can you feel it, daddy  
(well, can you love it)  
If you really know what it is  
Can you do it

[Verse 1] Tell me how any other girls done heard this  
Sounds a little like you might rehearse this, oh  
Yea, you talk a real good game  
But it's worthless if you can't work this  
Don't look so nervous

[Hook] All you gotta do is ask about me  
And you'll find out i'm a boss  
When it comes to the get-down, get-down  
Ooh, you know you said you might have to come through  
And show me how you do

[Chorus] Can you do it  
(i can do it)  
Then do it to me  
Well, can you prove it  
(i can prove it)  
Better than me  
Well, can you touch it  
(i can touch it)  
Like i really need  
Well, can you love it  
(i can love it)  
Then give it to me  
Just do it  
Just do it to me  
Just do it  
Just do it to me  
Just do it

Just do it to me

Just do it

Just do it to me

[Verse 2]

Hate to admit you got me thinking

What if we got away this weekend ohh

Maybe we can do some trick-or-treating

A little meet-n-greeting

Is what we seeing

[Hook]

All you gotta do is ask about me and you'll find out i'ma boss

When it comes to the get down, get down

Ooh enough said, you might come through

And show me how you do

[Chorus]Can you do it

(i can do it)

Then do it to me

Well, can you prove it

(i can prove it)

Better than me

Well, can you touch it

(i can touch it)

Like i really need

Well, can you love it

(i can love it)

Then give it to me

Just do it

Just do it to me

[Bridge]

Boy you glow in the dark

Would you like to see?

I'ma rock to the beat

With you under me

Tell me if it's all good

I'm knocking on wood

T-t-talk is ch-cheap

B-b-boy I wish you would

[Break]

Just work me, work me  
You ain't even gotta try so hard  
Can you play your part?  
Just work me, work me  
You ain't really gotta talk so much  
Wanna feel my touch?  
Just work me, work me  
Because I want it tonight  
And it gotta be right  
So what you saying?  
Just work me, work me uh  
Just work me, work me  
Ow!

[CHORUS]

Can you do it?  
And do it to me  
Can you prove it?  
Better than me  
Can you touch it?  
Like I really need  
Can you love it?  
And give it to me  
Just do it, just do it to me
