

# Bring Them to Light (feat. Joseph Duplantier)

## Apocalyptica

He's a large and ugly giant monster  
Headless on my back  
This urgent haste in my headMaterialized in this dark whole world  
No one can help me there  
I know this pain has gone too far  
The fear is now so loudKill a child I'm trying to protect myself  
Against your old controlled hate  
Pollution of mind filled all the space  
And destroyed my light  
At least mine were never allowedThe hardest thing for me is  
Facing the fear I live  
No one can help me  
Now it's under my heartI'll come to know the living  
My demons are inside  
I'll bring them all to lightI wanted to hate, I wanted to die  
I wanted to see you sacrifice  
I had to deal with the fear you gave me  
But you fucker never tried to help meI was jealous and I was scared  
Nobody ever replaced my pain  
To say I'm not evil, to tell I'm not bad  
Too late, I'm lost in human nature.Leave me be  
Set me free  
Leave me be  
Set me freeThe hardest thing for me is  
Facing the fear I live  
No one can help me  
Now it's under my heartI'll come to know the living  
My demons are inside  
I'll bring them all to lightUnexpected yet expected  
Emerged from the dark I come to life  
Take everything  
If you give my horse its headYou know me, your fear me, you know  
The hardest thing for me is  
Facing the fear I live  
No one can help me  
Now it's under my heartI will come to know the living  
My demons are inside  
I'll bring them all to light
