neol sarang haetjiman ijeneun aniya
neoui gieogeseo nal ijeojwo

I Donâ€™t Wanna Cry No More More

English

-

Itâ€™s not love, This isnâ€™t love

It's just your obsession
Wherever, Whatever I do
It's frightening, The you who watches me

I follow in your shadow
I make a phone call
I become thrilled at the sound of your shaking breath
My heart runs after your increasingly quick steps
I think I'll go crazy, The long night gets darker
Under the dead streetlamp in front of your house
I'm watching you through the crack in your window
Until the night ends, Come on and find me
You keep playing a suffocating game
of hide-and-seek with me
You, you, you
You're inseparable from me

Have you gone crazy?
Why are you like this?
Please just leave me alone now
Seeing you is suffocating
Please disappear from my sight

You can never break away from me
You have no one to love but me
Try to escape, Wherever you are
(I don't wanna see you)
I can see you, You know deeply
You can never break away from me
You have no one to love but me
Look at me now
I don't wanna cry no more, more

Get lost
Just back off
I really can't breathe
Wherever I go, Wherever I am
It's frightening, The you who follows me

A hundred times, Tens of thousands of times
I've called you
But why, why is there no answer?
Did you forget?
It's already been a thousand days since we met
I prepared a gift you'd like

I sit on the street you frequently travel
Iâ€™m waiting for you, I know my love
Donâ€™t call it obsession,
you donâ€™t know love
Donâ€™t say Iâ€™ve gone crazy
You donâ€™t know my heart
You you you
You can never be separated from me

Have you gone crazy?
Why are you like this?
Please just leave me alone now
Seeing you is suffocating
Please disappear from my sight

You know you want me too
You know you love me
Donâ€™t run away from me

Cut the crap~
Get ahold of yourself and stop it
Let go of me now

This ainâ€™t right, This isnâ€™t love
Itâ€™s just hurts me, donâ€™t be like this
I loved you, But I donâ€™t now
Erase me from your memory

I donâ€™t wanna cry no more, more
