Piper

Nonpoint

Split open your head
And let me pour it in
All the knowledge and feeling
Let you see on TV
Of these five deadly sins
That your mother would not
So you creep to your basement
All alone where the rats colonize
And lie about being asleep
With their tea
As they sip and they watch
You give into the sound
It just takes you and rips
At your soul
This piper is playing and hypnotizing
A funky ass street tempo
The forces are lining
You're resisting
The ticking the timing is off
Can you hear it It's ripping it's gripping
But it's all for nothing
The piper is playing his song
From your inside chest
And pulling your spirit
From the depths, the pits , the gutters, the shits
Your heart it collapses
That make you scream
Scream, scream, scream, scream,
Scream, scream, scream, scream,
Scream, scream, scream, scream
Scream, scream
Line up it's role call
Head is clear
Jeremiah spoke to the masses
And even though I wrapped you up in butterflies like evenflow
And in flash he caught a fist
The pipers tune is different
And broke his glasses
From the boom that you listened to

Better check your speakers
In your room
Their weaker and their trip
Is coming harder
Than a booyacka-booyacka
Coming from your father
Hypnotized, mesmerized, cauterized

With his eyes the suprise is
Start to fizz
Realize that control is his
The pipe is strong
The trip was long
You hit the bong
To concentrate on the song
And before too long
You're under his control
What the fuck?
The children are listening
The temper is ringing
Constantly clinging
To that hydroponic feeling
If you give him the chance
He'll take your mind away
Play the piper play the piper play
And as the rhythm fades
He is everything you needed
He is everything you ever wanted
He can change for any reason
Play the piper play
The piper play
He is everything you ever wanted
He is everything you needed
He can change for any reason
Play the piper play
The piper play
He is everything you ever wanted
He is everything you needed
He can change for any reason
Play the piper play
He has your mind in his head
The piper play
He's got your time
Now you can let go
He is everything you needed

He is everything you ever wanted
He can change for and reason
Play the piper play
The piper play
Now you can let go
He has your mind in his head
Play the piper playHe's got your time
