

Praise Him In Advance (Intro)

[Marvin Sapp](#)

Ive had my share of ups and downs
Times when there was no one around
God came and spoke these words to me
Praise will confuse the enemyIve had my share of ups and downs
Times when there was no one around
God came and spoke these words to me
Praise will confuse the enemyI started singing, I started clapping
I started dancing, people were laughing
They knew my problems, they knew my pain
But I knew God would take them awayIve had my share of ups and downs
Times when there was no one around
God came and spoke these words to me
Praise will confuse the enemyIve had my share of ups and downs
Times when there was no one around
God came and spoke these words to me
Praise will confuse the enemyI started singing, I started clapping
I started dancing, people were laughing
They knew my problems, they knew my pain
But I knew God would take them awayThats why I praise him with my hands
Thats why I praise him with a dance
Hes given me a second chance
Come on lets praise him in advanceThats why I praise him with a song
When things are right and when theyre wrong
Hes given me a second chance
Come on lets praise Him in advancePraise Him, Praise Him
Praise Him, Praise Him
Praise Him, Praise Him
Praise Him in advance
