

# Where's Your Head At (Radio Edit)

## Basement Jaxx

Where's your head at?Where's your head at?  
Where's your head at? Where's your head at?  
Where's your head at?  
Where's your head at? Where's your head at?Where's your head at?  
Where's your head at? Where's your head at?  
Where's your head at?  
Where's your head at? Where's your head at?Don't let the walls cave in on you  
We can't evolve alone without you  
Don't let the walls cave in on you  
We can't evolve alone without you  
Don't let the walls cave in on you  
You get what you give that much is true  
Don't let the walls cave in on you  
You turned the world away from youWhere's your head at?  
Where's your head at? Where's your head at?  
Where's your head at?  
Where's your head at? Where's your head at?You have found yourself  
Trapped in this incomprehensible maze  
Where's your head at?  
Where's your head at?  
Don't make it easy on yourself  
Where's your head at?  
Got to get, got to get  
Got to get, got to getWhere's your head at?  
Where's your head at? Where's your head at?  
Where's your head at?  
Where's your head at? Where's your head at?Don't let the walls cave in on you  
We can't evolve alone without you  
Don't let the walls cave in on you  
We can't evolve alone without youDon't let the walls cave in on you  
We can't evolve alone without you  
Don't let the walls cave in on you  
We can't evolve alone without youWhere's your head at?  
Where's your head at?  
We can't evolve alone without you  
We can't evolve alone without you  
We can't evolve alone without you  
We can't evolve alone without you
