

Winona

Viet Cong Blues Project

I tried to call you but the line was busy
Were you talking to a friend?
When I tried again much later
I didn't wanna let it ring again So you can see I've got a problem
Back by popular demand
Sometimes I want to keep it from you
Sometimes I think you'll understand Could you be my little movie star?
Could you be my long lost girl?
It's true that I don't really know you
And I'm alone in the world When I think maybe I need you
I don't care if it's not true
'Cause it isn't so much what I need now
As what I want from you Could you be my little movie star?
Could you be my long lost girl?
It's true that I don't really know you
And I'm alone in the world Could you be my little movie star?
Could you be my long lost girl?
It's true that I don't really know you I feel alone, I feel alone
