

# Turn It On

**John Gonzalez**

Neon lights light the live show  
Big dance floor and the beer ice cold  
Faded jeans long black hair  
It's a paradise tangled up in lies  
( bridge)  
And I get a front row view  
To see it all come true  
Is a one way ride  
Here inside  
(Ch)  
So turn it on, it don't matter anyway  
If you loose or steel away  
Turn it on, take a drink kill the pain  
Then get back on your game  
Here we're all the same  
Step by step line by line  
At closing time everyone is a different kind  
Change your name hide your shine  
Forget the Blaim, another alibi  
(Bridge)  
(Ch)
