

F***in Wit Me

Tank

It's what Im gon do
Bout to eat it up for a while, let me through
Got you shakin, screamin aloud, I'ma fool
Make my face your chair, leakin everywhere
Ride it out I don't care, what you do Every time I lick it, you be losin it
These young boys didn't know what to do wit it
You got it all on my face, I love the way that it taste
When you put it all on my plate
It won't go to waste, That's what you get everyday
When you F***in wit me
F***in wit me
That's what you get everyday
When you F***in wit me
F***in wit me
That's what you get everyday
When you... Bout to eat it up for a while, let me through
You know I like it animal style, like a zoo
You got a right to be selfish
For all of them nights you was helpless
Them mornings too, let's make it breakfast
Them mornings too, let's make it breakfast, oh yeah Every time I lick it, you be losin it
These young boys didn't know what to do wit it
You got it all on my face, I love the way that it taste
When you put it all on my plate
It won't go to waste, That's what you get everyday
When you F***in wit me
F***in wit me
That's what you get everyday
When you F***in wit me
F***in wit me
That's what you get everyday
When you... Everyday when you wake up,
When you get home from your job
Yeah, this could really be us.
Trust me bae I don't get tired,
I got more than one way to please ya,
Lay it down gotta know how to treat ya
Satisfied that's how I'm gon leave ya
It's more than a want,

Girl I need to. Every time I lick it, you be losin it
These young boys didn't know what to do with it
You got it all on my face, I love the way that it taste
When you put it all on my plate
It won't go to waste, That's what you get everyday
When you F***in wit me
F***in wit me
That's what you get everyday
When you F***in wit me
F***in wit me
That's what you get everyday
When you...
