

A Mother's Rosary

Lisa McHugh

A mother's Rosary

Verse I

Long time ago when I was young and still a girl in school
I'd sit beside the fireside on our kitchen stool.
One night as I kissed Mom goodnight she said one moment dear.
I have something to show you I've had for many years.
So she reached into the dresser and took out a dusty cloth.
And wrapped inside a teller that a very special box
I opened it and saw a note, shiny rosary
She turned to me and with a tear,
This she said to me.

Chorus

Take this rosary that my mother gave to me.
It's yours to hold for ever more and for eternity
With every prayer you say be glad and always think of me
I love you forever and I know that you love me.

Verse II

As I sit beside you bedside I recall those memories
I've kept you beads beside me through life's long journey
Soon I know you have to go to God eternally,
Mom I won't forget you and all you've done for me

Chorus

So I'll take this Rosary that my mother gave to me
I'll hold them for ever more and for eternity
With every prayer I say I'll know the love that you've shown me
I love you forever and I know that you love me

Verse III

One day I'll tell my daughters of
the faith you passed to me
I know they'll love and cherish our dear Rosary
Mom I won't forget you and our rosary.
