

Broken Jaw

Foster The People

yeah, yeah
yeah, yeah
yeah, yeah
I've broken every law
All the words come out my broken jaw
I don't know anything
But then I act like I know everything
Don't wanna talk about it
What do you see when you dream about it
I have been broke down from my enemies
drifting farther from my memories
And then you take it away
Then I come back down
You tell me what's my name
I'm still the same just been rearranged
Smile through the choke inside
Yeah, I've been hiding with nothing to hide
Don't wanna talk about it
What do you see when you dream about it
I have been broke down from my enemies
Holding a piece of what's left of me

And then you take it away
Then I come back down
Then I come back down
Sometimes you find yourself waiting
Waiting for someone to come around
And it's hopeless, hoping to be found
Then it arrives saying "You're perfect my love"
And I, I know why, I know why
But you said "I don't know"
Said I don't know
Said I don't know
Said I don't know
You said I don't know
Said I don't know
Said I don't know
You don't know
Said I don't know

Said I don't know
You don't know
Said I don't know
Said I don't know
Just take it away with your mind
Beneath my broken jaw
You slay my ego
What you need is dying and you're upset
