

Upstream

Jiva

Straight onto the beating path
Phase down into its aftermath
Kills me to find myself here at last
 I blame it on my human side
 I blame it on the other guy
 I blame the stars on the boulevard
 A perfect body, a perfect smile
The perfect lover impeccably in style
 I used to be, I'd laugh it off
 Now it's just this joke I got
 A halo promise in a sinner's dream
The punch line is I always swim upstream
 I blame it on my human side
 I blame it on the other guy
 I used to be, I'd laugh it off
 Now it's just this joke I got
 A halo promises a sinner's dream
The punch line is I always swim upstream, upstream
 I used to be, I'd laugh it off
 Now it's just this joke I got
 A halo promises a sinner's dream
The punch line is I always swim upstream, upstream
