

You Can Touch (1999 Digital Remaster)

Crowded House

It could spell my mere defeat
You could find it's what you need
And tears will fall and oceans will rise
I feel the fear and I know I'm alive And you can touch me
I won't hide
You can touch me
I won't die My condition is hard to define
I'm thin and pale and I need to unwind
See no future from where I stand
For the present I am in your hands And you can touch me
I won't hide
You can touch me
I won't die And tears will fall and oceans will rise
I feel the fear and I know I'm alive
It is only passing through And you can touch me
I won't hide
You can touch me
I won't die You can touch me
I won't die
