

Say It

Markku Mattila

Your'e young and looking forward
Do they turn their backs on You?
You have the skills and everything
You want to start building a lifeSay it, say it
Say it loud when You've got something to say or You want to play
No one is going to help You
Say it, say it
Say it loud when You've got something to say or You want to play
Stay strong and hard as steelYou've got the power and soul
Things are so clear for You
They found someone else
You got no chance, "better luck next time"Say it, say it
Say it loud when You've got something to say or You want to play
No one is going to help You
Say it, say it
Say it loud when You've got something to say or You want to play
Stay strong and hard as steel
