

I Am the Lord

MONEY

Since we know the side streets
I watched the people's lives there high
Just watching dreams by dreams but they dream too fast
 You are not the same as me
 I 'm out there in the clouds
 and the world spends inside me
 and I'm going to throw
 I am the Lord
 He gave me His eyes to see the world
 I Have His thoughts He needed someone to talk to
 I am the Lord
 What I'm trying to say it's that I don't want to be god
 I just don't want to be human
 I'm not looking for somebody to blame
 I just want his attention
When the sun comes out [...] last time and it's baring in the mud
 I am the Lord
 He gave me his eyes to see you
I have His thoughts He needed someone He needed someone
 He needed someone
