

# If I Have My Way

[Chrisette Michele](#)

You're who I desire, you light my fire  
With every kiss you take me higher  
Feeling like you're loving I just cannot resist  
There's something that's making me hold on  
There's no one I would rather share my good loving with  
But I promised, I'd wait till I'm ready for this  
One day we'll make love passion unheard of  
I'll be your woman, if I have my way  
We will see heaven, loving together  
We won't stop ever if I have my way  
I love your touch, it makes me crumble, oh  
I'm in love so much, look what you've done  
Please don't whisper anything else in my ear  
My body, my heart and my soul is high  
Let me find the strength to get on up outta here  
'Cause one day, the way we feel, we'll be alright  
One day we'll make love passion unheard of  
I'll be your woman, if I have my way  
We will see heaven, loving together  
We won't stop ever if I have my way  
I love you, no doubt about it  
I won't change my mind  
Love's so true  
If I have my way I will make love to you  
One day we'll make love passion unheard of  
I'll be your woman, if I have my way  
We will see heaven, loving together
