

# Dora the Female Explorer

## Stackridge

Climbs up the mountains, to fool with you,  
She never does the one thing you expect her to.  
Underneath the clifftop, hanging by her teeth,  
This girl will find adventure, right there at your feet.  
Dora the female explorer has gone  
Dora the female explorer has gone Shooting down the rapids or diving fathoms deep,  
Dora keeps you busy, she never lets you sleep.  
Wet or windy weather rarely keeps her in,  
If you want to make her happy,  
Just ask her where she's been  
Dora the female explorer has gone  
Dora the female explorer has gone  
Shooting down the rapids or diving fathoms deep,  
Dora keeps you busy, she never lets you sleep.  
Wet or windy weather rarely keeps her in,  
If you want to make her happy,  
Just ask her where she's been  
Dora the female explorer has gone  
Dora the female explorer has gone
