

In The Night

Blackfoot

Whoa ho, Oh yeah
Yeah, I got a woman, oh lord
Sweet as she can be
I'm a workin' man, I work as hard as I can
Oh you got a hold on me
Kind of woman, yes,
She can handle her hunk of man
She can shake the sheets to a rock'n' roll beat
Lord with her easy man
In the night, Ohhh beside
Take it to the end hmmmmm
Oh in the night
Stands bright. Ohhh for love
Ooooh, in the night
I love my nightlife
Yes, just a me and my friends
Love the way it feels a-slidin' behind the wheel
Oh take it home to the end
Take my chances
To have some other lover too
When the sun comes up, Ill be in her loving cup
Oh that turn a rock star blue
In the night
Turn off the cryin,

Up with loving hmmmmm
Oh in the night
Stands bright. oh for love
Yeah baby, yeahhhh
Whoa ho
Yeah, I got no worries
The views just lookin' better every day
Well I lover her a lot, cause she's all that I got
Wouldn't want to give her away
Whoa milk and honey
She can have some other lovin' too
Well I singe the sheets to a rock'n' roll beat
Oh that turn a rock star blue
In the night

Time is right
Yes honey, for loving hmmmmm
Yeah, yeah
Oh in the night
Standin? bright for lovvvve
Wooh in the night
Standin? bright
For loving hmmmmm
Whoa in the night
Standin? bright, oh for love
Bring her, oh yes, in the night-ta
Woooo woo
