Relocate You

Nightbox

You are an alien,
I am a human,
Let's make this work,
I can relocate you,
To a better place,
Away from space, away from space.

So don't look back,
Into the sun,
Look back, into the sun,
Run, 'cause you're going to go down, down, down.
Run, 'cause you're going to go down, down, down.

The needle pricks my skin,
Now I'm awake,
In a better place,
I can relocate you,
Where you belong,
Away from this part of the world,
Away from this part of the world.
We're trapped on this land,
and we're sinking under the sound,
to a better place.

Don't look back into the sun,
Look back into the sun,
Run 'cause you're going to go down, down, down.
Run 'cause you're going to go down, down, down.
(x2)
