

Grim Luxuria

Cathedral

Oh, ecstasy, cold sin and fire, burning wrath and anger
This crippled splendor of lust so dire, yeah
Insane visions of beauty, groaning's so empty
Wriggling in agony, the frail corpse of love that's me
Hair and eyes, limbs and faces
Bending hard in fierce embraces
Loveless rage, come give me pain
Arcane exotica, ooh, grim luxuria
Twisted lust on fire
Love the bastard liar
Sick grins of pleasure, warped torsos in heaven
Bending tongues, saliva, licking lifeforms of grotesque
On the floor bones cracking, like evil dogs mauling
Grunting in this ecstasy, shaking, screaming, clawing me
Pleading eyes, mangled faces
Torn apart, in growling places
Ooh, this seething cage, white light in vain
Arcane exotica, ooh, grim luxuria
Twisted lust on fire
Love the bastard liar
It's just getting dark here, here
[Incomprehensible]
Twisted lust on fire
Love the bastard liar
Sweet sanctity
Hell is pouring over me
