Prime Cut

Prong

Shake the slab of flesh, taunting for a fetch
Time to ring the chime
Wet the appetite, teeth are grinding tight
Reinforcing lifeDrooling down the sides, eyes are bulging wide
Yes the price is right
The cut is very tough, gristles good enough
They all need a biteThe cut is very tough, gristles good enough
They all need a bite
The cut is very tough, gristles good enough
The cut is very toughNo tolling of the bell, just the one to hell
There they'll all know
Thimbleful to chance, pay the luxury tax
Do not pass goTry and bring the beef, see what is to keep
Not a pretty sight
The cut is very tough, you bit the big bluff
The cut is very toughThe cut is very tough, you bit the big bluff
Take another bite
The cut is very tough, you bit the big bluff
The cut is very toughYeahThe cut is very tough
The cut is very tough
The cut is very tough
The cut is very tough
