

# Prime Cut

## Prong

Shake the slab of flesh, taunting for a fetch  
Time to ring the chime  
Wet the appetite, teeth are grinding tight  
Reinforcing life Drooling down the sides, eyes are bulging wide  
Yes the price is right  
The cut is very tough, gristles good enough  
They all need a bite The cut is very tough, gristles good enough  
They all need a bite  
The cut is very tough, gristles good enough  
The cut is very tough No tolling of the bell, just the one to hell  
There they'll all know  
Thimbleful to chance, pay the luxury tax  
Do not pass go Try and bring the beef, see what is to keep  
Not a pretty sight  
The cut is very tough, you bit the big bluff  
The cut is very tough The cut is very tough, you bit the big bluff  
Take another bite  
The cut is very tough, you bit the big bluff  
The cut is very tough Yeah The cut is very tough  
The cut is very tough  
The cut is very tough  
The cut is very tough
