

In This Together

Math and Physics Club

We're in this together
We never really had another choice
Yeah, it could've been better
But then it couldn't get much worse Even if it could
I think it's well understood
Oh yeah They're in this together
Yeah, we're in it together
We're in this together
Yeah, we're in it together
I'll be your shelter
When rainy days and Mondays get you down
And no matter the weather
I could never leave you ever Even if I could
Do you think that I would?
Oh, yeah
We're in this together
Yeah, we're in it together
We're in this together
Yeah, we're in it together Even if I could
Do you think that I would?
Oh, yeah
