

# One Is Such A Lonely Number

Roxette

I never knew when you walked in the room  
I sold my soul to a stranger, an angel face, yeah  
I never had this kind of sight before  
This kind of vision white, hang on tight, yeah  
I don't know, girl, you've been around  
Don't you go, don't you let me down  
One is such a lonely number to make the world go round  
Three is just a little too much to touch, now honey  
To make the world go round and round and round  
One is such a lonely number  
I think about what this has done to me  
I'm going back to the start, back to school days  
I never had this urge inside of me  
To hear the sound of a heart fill the airwaves  
There's a love line, it's tied to the ground  
Leave you here, never let you down  
One is such a lonely number to make the world go round  
Three is just a little too much to touch, now honey  
To make the world go round and round and round  
One is such a lonely number to mend a broken heart  
Three is just a little too much to touch, hey honey  
To make the world go round and round, and round, and round  
There's a love line, it's tied to the ground  
Leave you here, never let you down  
One is such a lonely number to make the world go round  
Three is just a little too much to touch, now honey  
To make the world go round and round and round  
One is such a lonely number to mend a broken heart  
Three is just a little too much to touch, hey honey  
To make the world go round and round and round  
One is such a lonely number to make the world go round [unverified]
