Good stuff, man! I could see Alice Cooper doing some of your stuff (the newer Alice Cooper) and I mean that as a total compliment!

Love, Hate, The World, Fate

All Hail! Alter Nation
We got our needle on the stick
Itâ€™s no long-lived revelation
Lean hard on the lunatic
We got crash burned on the way
High nooned and overplayed

Round and round and round no it canâ€™t be
Round and round and round itâ€™s all we can see
The world is blowing off its way and going down and down and round and round
Love, hate, the world, fate
Care not, want not

Black heart perpetration
Donâ€™t care if they see what you do
I got a short wind declamation
Thereâ€™s gotta be someone better than you

Round and round and round no it canâ€™t be
Round and round and round itâ€™s all we can see
The world is blowing off its way and going down and down and round and round
Love, hate, the world, fate
Care? No!

Round and round and round no it canâ€™t be
Round and round and round itâ€™s all we can see
The wheels are coming off the tracks and going down and down and round and round
Round and round and round no it canâ€™t be
Round and round and round itâ€™s all we can see
The world is blowing off its way and going down and down and round and round
Love, hate, the world, fate
Care? No, no no!
