Take

Flotsam and Jetsam

See the way you take my soul
Laugh at how you steal my pride
Crush the dreams that I once had
I'll take it all in strideGive up everything I've worked for
Give you everything you want
Leave behind my friends and past
To watch you walk awayI did it all for you
I gave you more than I had to give
I gave it all to you
I keep on giving and you just takeTake what you want from me
And throw the rest away
See you standing proud
About the way you forced me down
Into the groundShow me how to fear another
Teach me not to trust again
Always look over my shoulder
Live with what you took from meNo more can I close my eyes
I just see you walk away
I can't clear my head of you
I cry another dayI did it all for you
I gave you more than I had to give
I gave it all to you
I keep on giving and you just takeTake what you want from me
And throw the rest away
See you standing proud
About the way you forced me down
Into the groundTake what you need from me
And leave the rest behind
Take what you want
Take it and leave
