

Rainbow (remix)

South Border

Yeah, there's a pot of gold at the end of the rainbow (remix)(chorus)

life's beautiful

hold on to your dreams cause

everything possible

just keep a flame burning in your heart

this is where to start yeah They say the rest is on the other side

but everything will always be alright

look for the silver lining

this life just like a big wheel turning

round and round it go

will it stop

I guess nobody knows

If we make mistakes we really gotta face it

we gotta face the truth and man embrace it

life is not always what it seems to be

but things don't always turn out

the way they should see

nothing really is impossible

all you need is strong mind body and soul(chorus 2x)there's a pot of gold at the end of the rainbow
