Firefly

Elis

Im a dreamer
I long for holy lands
Wings of dragons
And unicorns that guide my wayI've always Believed that magic lies within our minds
(Fairies whisper in threes , waiting for the nightI just Close my eyes
embracing the power of life
(My soul dances with the
swarm of the fireflies)Refrain :Im alive , breath in the light
(The fire flies !)
Let lifes lightning hit my sleep
(The fire flies !)Gimme hope , gimme dreams
Tears , love and fears
All my life I longed to see the firefliesI've always believed that what we are
is more than we can see
/unseen bounds are weaved between all the living wights)
The mystery worlds surround us
theres so much more to be
(MY soul dances with the swarm of the fireflies)Refrain (2x)
