Mein

Topanga

I've looked outside
But I've never wandered out
I'd like to pull you into me
Intercept you, in between
But I'll never walk without, outside
Thatta way, outta the way
Stay away from you
Thatta way, outta the way
Stay away from you
I've looked inside
But I never wandered in
I'd like to pull you into me
Intercept you, in between
But I'll never wander in, inside
Thatta way, outta the way
Stay away from you

Thatta way, outta the way
Stay away from you
The universe, breaking us down
The universe, breaking us down
Thatta way, outta the way
Stay away from you
Thatta way, outta the way
Stay away from you
Thatta way, outta the way
Stay away from you, you, you, you
The universe, breaking us down
The universe, breaking us down
The universe, breaking us down
The universe, breaking us down
