giraffe

Cian Moynan

I've been drinking
With wolves dressed up as sheep
They've been killing
Injured creatures in their sleepGet some feelings
That truly bothers me
I can save them
I know I canThat's what you get
For sticking out your neck
And that's what you get
For sticking out your neckAnd that's what you get
For sticking out your neck
And that's what you get
For sticking out your neckI've been lonely
I've been trying not to show
The pain you caused me
You really shut me downLike a butterfly
Being stung to death by bees
That's an image no one
Wants to seeThat's what you get
For sticking out your neck
And that's what you get
For sticking out your neckAnd that's what you get
For sticking out your neck
And that's what you get
For sticking out your neckIt's just another sunny day where I'm at
My head is in the clouds 'cause I'm stretching out my neck
I wake up in the morning to a protein shake
Do twenty minutes calisthenics then I'm off into the dayThat's what you get
For sticking out your neck
And that's what you get
For sticking out your neckAnd that's what you get
For sticking out your neck
And that's what you get
For sticking out your neckAnd that's what you get
For sticking out your neck
And that's what you get
For sticking out your neckAnd that's what you get
For sticking out your neck
And that's what you get

For sticking out your neck
