

You Tell Me

Tom Petty and The Heartbreakers

You tell me 'cause I don't know
How we are or where we go from here
I can't read your mind, is everything okay?
Oh, don't ask me, I don't know what to say You tell me what comes next
What I can and can't expect from you
Is there somethin' we can mend?
What will the story be?
Oh, you've got all the answers that I need Do we wave a flag and say it's over?
Do we honor all the vows we made?
I love the way we were
Tomorrow what will we be You tell me 'cause I can't play
This guessin' game where love can stay or go
It changes with the wind what our hearts will do
Whatever way it blows is up to you Do we wave a flag and say it's over?
Do we honor all the vows we made?
I love the way we were
Tomorrow what will we be
You tell me Do we wave a flag and say it's over?
Do we honor all the vows we made?
I love the way we were
Tomorrow what will we be
You tell me, you tell me
