Dream While You Can

Michael Bolton

Dream little child, dream while you can
Dream my child, dream while you can
Of everything that I would dream
If I had the time, dream while you can
And fly little child, fly while you can
Fly my child, away while you can
Far out places and new born lands
Fly while you can
And be little child, be while you can
Be my child, free while you can
Anything that you wanna be
Well, it's in your hands
Be while you can
Dream little child, dream while you can

Dream my child, dream while you can
Of everything that I would dream
If I had the time, but dream while you can
Dream while you can
Fly away while you can
Be free while you can
Dream while you can, dream away
Dream away while you can
Fly away, fly away
While you can
Be free, be free
While you still can
Ooh, dream while you can
Fly away, dream while you can
