

All Through The Night

Ella Fitzgerald

The day is my enemy
The night my friend
For I'm always so alone
Till the day draws to an endBut when the sun goes down
And the moon comes through
To the monotone of the evening's drone
I'm all alone, with youAll through the night, I delight in your love
All through the night, you're so close to me
All through the night, from a height far above
You and your love brings me ecstasyWhen dawn comes to waken me
You're never there at all
I know you've forsaken me
Till the shadows fallBut then once again
I can dream
I've the right to be close to you
All through the night
