

# Mystery Train

**Bob Welch**

Come on now mystery train  
Bring her back to me again  
I want to feel her, hold me tight  
And never be lonely at nightRoll down your mystery track  
Past the cities all blazin' black  
I'm counting hours till she comes back  
Not gonna be lonely againOh, I can hear you coming  
Yeah, and you're carrying something  
Got my baby on your mystery trainOh, I can hear you coming  
Yeah, and you're carrying something  
Got my baby on your mystery trainYeah, come on now mystery train  
Through the mountains blowing rain  
But when you get there mystery train  
It'll never be rainy againOh, I can hear you coming  
Yeah, and you're carrying something  
Got my baby on your mystery train
