Call Me Back Again

Paul McCartney & Wings

Well when I, when I was
Just a little baby boy
Every night I would call
Your number brought me joyI called your house every night since then
But I ain't never, no, no, never heard you calling me
Come on and call me back again
Come on and call me back againI've heard your name every night since then
But I ain't never, no no never heard you calling me
Come on and call me back again
Yeah call me back againWell when I, when I was
Just a little baby boy
Every night, every night I would call
Because your number brought me joyOh I've called your name every night since then
But I ain't never, no, no, no, no, never heard you calling me
Come on and call me back again
Come on and call me back againCome on and
Come on and call me
Ooh boo boo boo babe
Call me back again, oohNow won't you call me?
Call me back again
I ain't never heard you
So why don't you call me back again?
