Gloom

Glass Towers

Watch me throw myself into a circle,
Watch me throw myself in other circles.
Because I'm slowly fading into nightmare.
If only I could show you how much I can...

They don't know it all,
They don't know it all,
They don't want it all,
They don't want it all.

They don't know it all,
They don't know it all,
They don't want it all,
They don't want it (all).

How to grow up, how to leave those houses,
To our home at night and think about that.
I only want those those things you take for answers,
Pull me out and we'll talk all about it.

They don't know it all,
They don't know it all,
They don't want it all,
They don't want it all.

They don't know it all,
They don't know it all,
They don't want it all,
They don't want it all.

(It all...)
(It all...)
