In My Dreams With You

Steve Vai

I'm watchin' you, I'm wantin' you but you turn away
I'd crawl through broken glass to you but it wouldn't pay
You take me for a fool but if you only knew
What I do in my dreams with youYou're so cold and critical
And baby that's too bad
So my reality
Will have to come to me in my dreamsAnd I know that you belong to me every night
You suddenly appear in my eyes, it happens when I sleep
It isn't right, what I do in my dreams with you
It isn't right, what I do in my dreams with youI love the way you come to me every night
My fantasies are real and they never lie
If you only knew what I do in my dreams with you, yeah
Isn't right, Lord, knows that it isn't rightThe world can make you cynical
With all its love and its pain
But I don't have to carry
The weight of the worldI know that you belong to me every night
You suddenly appear in my eyes, it happens when I sleep
It isn't right, what I do in my dreams with you
It isn't right, what I do in my dreams with youBaby, don't wake me, let me take you on an endless journey
We touch and the softest kiss explodes with lust
And it's real, you can't deny the heat you feel
And if I die before I wake, baby, that's all rightI know that you belong to me every night
You suddenly appear in my eyes, it happens when I sleep
It isn't right, what I do in my dreams with you
It isn't right, what I do in my dreams with youI know that you belong to me every night
You suddenly appear in my eyes, it happens when I sleep
It isn't right, what I do in my dreams with you
It isn't right, what I do in my dreams with youAnd I know that you belong to me every night
You suddenly appear in my eyes, it happens when I sleep
It isn't right, what I do in my dreams with you
It isn't right, what I do in my dreams with you
