

# Rocket Girl (feat. Betty Who)

Lemaitre

I'm coming down, I'm headed out  
Chasing a cosmic constellation in the stars  
That speed of sound can't catch me now  
And by the time you see me I won't be around Houston, we up, Earth ain't enough  
You can call me rocket girl  
Oh, Major Tom, you ain't so tough  
Watch me fly across the universe  
It's T minus one, ooh  
You can call me rocket girl  
It's T minus one, ooh  
Watch me fly across the universe  
I'm on a roll, I'm leaving home  
He's throwin' down  
Those neon lights, only the road  
My speed of light, I'll blow your mind  
I'll be the feeling you'll be dreaming of tonight Houston, we up, Earth ain't enough  
You can call me rocket girl  
Oh, Major Tom, you ain't so tough  
Watch me fly across the universe  
It's T minus one, ooh  
You can call me rocket girl  
It's T minus one, ooh  
Watch me fly across the universe  
It's T minus one, ooh  
You can call me rocket girl  
It's T minus one, ooh  
Watch me fly across the universe  
It's T minus one  
It's T minus one
