Letters

Starflower

Send a message to my heart,
Tell it everything, from the start,
Make it honest, make it true,
It's the only way, we'll see it through.
Send them all, the letters,
Fit them all together,
Set in stone, forever,
Make it whole,
And never tell a soul,
Endeavour to be told.
Send a message to my heart,
Send a message to my heart,
With every beat,
I hear it speaking loud and clear,
Send a message to my heart.
Break it gently or break me down,
Don't say anything, don't make a sound,
Actions, although they hurt,
It's the feelings that really burn.

Send them all, the letters,
Fit them all together,
Set in stone, forever,
Make it whole,
And never tell a soul,
Endeavour to be told.
Send a message to my heart,
Send a message to my heart,
With every beat,
I hear it speaking loud and clear,
Send a message to my heart.
Send them all, the letters,
Fit them all together,
Set in stone, forever,
Make it whole,
And never tell a soul,
Endeavour to be told.
Send a message to my heart,
Send a message to my heart,

Send a message to my heart,
Send a message to my heart.
