Rainbow's End

Camel

(Latimer, Bardens)
We began by sharing more together
Black against white made it alright
But things are different now, we've grown apart
So it's ok, call it a day
What can I say
Let's just remember what we had
Keep on looking for that rainbow
Rainbow's end
And when you find that rainbow
Start againI know now that it all seems wrong
But we had no choice
Change is a thing we can't avoid
And even though we're singing different songs
Love still lasts, time will pass
You and I will always get by
So keep on looking for that rainbow
Rainbow's end
And when you find the rainbow
Start againSo keep on looking for that rainbow
Start again
I hope you find the rainbow
Rainbow's end
