

# Breathe in the Flames

## Trivium

[Verse 1]

Your kingdom built on lies

Revenge I fantasize

Take me all who oppose

You thought I was disposed[Post-Verse]

You've shown your true intentions

What kind of man you are[Pre-Chorus]

The knives are sharpening

A co-conspiracy

Poisonous treachery

My judas lights the flame

But now you see that I[Chorus]

Breathe in the flamesThe ones that build you up

Can burn you down the sameBreathe in the flamesThe ones that build you up

Can burn you down the same

The ones that build you up

Can burn you down the same[Verse 2]

Your throat an open grave

Your tongue used to deceive

With that I'm sinking in

Your kind will never win[Post Verse]

You've shown your true intentions

What kind of man you are[Pre-Chorus]

The knives are sharpening

A co-conspiracy

Poisonous treachery

My judas lights the flame

But now you see that I[Chorus]

Breathe in the flamesThe ones that build you up

Can burn you down the sameBreathe in the flamesThe ones that build you up

Can burn you down the same

The ones that build you up

Can burn you down the sameBurn you down the same~[Solo]~[Chorus]

Breathe in the flamesThe ones that build you up

Can burn you down the sameBreathe in the flamesThe ones that build you up

Can burn you down the same

The ones that build you up

Can burn you down the sameBurn you down the same
