

No Way

The Naked and Famous

When the daylight comes
Do you feel it?
Leave your bag of bones
Underneath your bed
Everything is as
It should be
I'm leaving now
As I should be
No way, no way
No we're never gonna talk about it
No way, no way
No we're never gonna speak again
No way, no way
No we're never gonna talk about it
No way, no way
When the night descends
Are you sleeping?
All the things you've done
Come to haunt you
All that we can do
Is smile
It will be like this
For a while
No way, no way
No we're never gonna talk about it
No way, no way
No we're never gonna speak again
No way, no way
No we're never gonna talk about it
No way, no way
